

A review of 'Windows of Reflection'

'Windows of Reflection' is a deceptively simple book of poems. Though simple in their construct, Tasneem Kagalwalla's poems offer deep insights into the complex and chaotic world of human psyche.

Tasneem's extensive work as a Life Coach, Trainer and Confidante has imbued her with a keenness of perception, sensitivity and sagacity well beyond her years, which shine through in her poems. Her poems are meditations on the beauty and imperfection of existence. They are also acts of courage as Tasneem lays bare her innermost thoughts and feelings to the world.

Life, like a diamond, is a many faceted thing and Tasneem Kagalwalla's 'Windows of Reflection' will surely illuminate and dazzle its readers with the light of understanding.
